PROFILE SUMMARY

Architectural 3D Visualizer with production experience at a Chennai-based design studio, delivering photorealistic renders and real-time walkthroughs for residential and commercial clients. Proficient in 3ds Max, V-Ray, D5 Render, Chaos Vantage, and Photoshop. Demonstrated ability to optimize render pipelines, reduce turnaround time, and translate raw CAD drawings into client-winning visuals. Seeking to bring strong rendering fundamentals and a performance-oriented mindset to a growth-stage architecture or interior design firm.

PROFESSIONAL EXPERIENCE

Architectural 3D visualizer | Dots Designers Pvt. Ltd., Chennai | Feb 2025 – Present

- Delivered photorealistic interior and exterior renders for villas, apartments, hospitality, retail and commercial projects, directly supporting client approval and sales presentations.
- Translated CAD floor plans and elevation drawings into production-ready 3D scenes in 3ds Max, maintaining scale accuracy and design intent across all project types.
- Built V-Ray lighting and material libraries adopted studio-wide, standardizing output quality and reducing per-project lighting setup time by approximately 25%.
- Produced real-time walkthroughs using **Chaos Vantage**, enabling live client design reviews and significantly reducing revision cycles.
- Performed post-production compositing in **Photoshop** to enhance lighting, mood, and scene realism for all final client deliverables.
- Optimised scene geometry, proxies, and V-Ray render settings — cutting render times by up to 20% on high-poly scenes while maintaining client-ready visual quality.
- Contributed to the successful delivery of **8 architectural walkthrough animations** and independently executed a complete residential walkthrough, including scene preparation, lighting, camera animation, rendering, and post-production.

SOFTWARE SKILLS

3ds Max | V-Ray | Chaos Vantage | D5 Render | Adobe Photoshop | AutoCAD | Adobe Premiere Pro

VISUALISATION EXPERTISE

Exterior Rendering | Interior Visualization | Walkthrough Animation | Lighting & Material Setup | Photorealistic Rendering | Real-Time Visualization (Chaos Vantage)

EDUCATION

Master Diploma in Architectural Design | Cadfx Institute, Vadapalani, Chennai | 2024 – 2025

Comprehensive training in architectural visualization, rendering pipelines, spatial design, and industry-standard software.
